

Dear Prospective Volunteer:

Thank you for your interest in the volunteer program at Sharp Grossmont Hospital. Our volunteers work throughout the hospital and share their skills to help the hospital fulfill its mission of excellence in patient care and customer service.

Adult and college student volunteers must be at least 18 years of age.

**Volunteers must also complete the following steps:**

- New volunteer orientation
- Personal interview (scheduled at the time of orientation)
- **Health screening (to be completed once in the program and after personal interview)**
- General training
- Additional training in the assigned job

**Health Screening:**

Below are the TB skin test and immunization requirements for volunteers at Sharp HealthCare. TB skin testing and Flu vaccine will be provided by Sharp Employee Occupational Health Department (EOHD) at no charge.

Any vaccine or titer documentation that is required will need to be completed by a provider of your choosing. The best options are to get vaccinated by 1) student health services or 2) your primary care provider if you have health insurance coverage for vaccines. If you do not have insurance or your insurance does not cover vaccines you can go to one of the San Diego Public Health Centers (SDPHC) which offers MMR and Tdap vaccine for \$10. We recommend you call SDPHC in advance to check on the availability of vaccines and if you are eligible to receive vaccine. If you are not eligible for vaccine provided by the County Public Health, you can be vaccinated at many drug store or grocery store pharmacies.

If there is a co-pay for your visit(s) Sharp HealthCare will reimburse your expenses up to \$20 per visit. Please present the original receipt to an EOHD office.

If you need a booster for MMR or Varicella, please do not get this until AFTER you have completed all of your TB skin testing at Sharp EOHD. If you have had a live virus vaccine such as MMR or Varicella, we are required to wait 4 weeks before we can give you a TB skin test and this would delay your start as a volunteer.

**Volunteers in hospitals and clinics**

1. 2 step TB skin test given 1 week apart at Sharp Employee Occupational Health Department (EOHD). Skin tests are read 48-72 hours after placement.
2. During Flu Season October to March, one dose of Seasonal Flu vaccine given in EOHD or proof of vaccination.
3. If you were born 1957 or later, provide EOHD with documentation of 2 doses Measles, Mumps, and Rubella (MMR) vaccine or a blood test with positive immunity. If you do not have a provider or insurance for the blood test, EOHD can order the test and you will be charged a maximum of \$70 cash payment due at time of service.

4. Provide EOHD with documentation of 1 dose Tetanus, Diphtheria, Pertussis (Tdap) given 2005 or later
5. A verbal statement if you have had chickenpox illness in the past or documentation of a positive varicella titer. If you have not had chickenpox you will need to provide EOHD with documentation of 2 doses of Varicella (chickenpox) vaccine. If you are unsure as to whether you had chickenpox, a blood test can be done as described in #3 above for an additional \$21 (or \$25 if only drawing chicken pox titer).

### **Volunteers in Women's Clinical Areas**

1. 2 step TB skin test given 1 week apart at Sharp Employee Occupational Health Department (EOHD). Skin tests are read 48-72 hours after placement.
2. During Flu Season October to March, one dose of Seasonal Flu vaccine given in EOHD or proof of vaccination.
3. If you were born 1957 or later, provide EOHD with documentation of 2 doses Measles, Mumps, and Rubella (MMR) vaccine or a blood test with positive immunity. If you do not have a provider or insurance for the blood test, EOHD can order the test and you will be charged a maximum of \$70 cash payment due at time of service.
4. Provide EOHD with documentation of 1 dose Tetanus, Diphtheria, Pertussis (Tdap) given 2005 or later
5. Provide EOHD with documentation of immunity to Chickenpox. You can provide either a titer (blood test) showing proof of immunity if you have had chickenpox in the past OR if you have not had chicken pox you will need documentation of 2 doses of Varicella (chickenpox) vaccine.

The San Diego Public Health Centers (SDPHC) offer Varicella vaccine for \$10 if you are less than age 18 years old. If you are over 18 you may have a blood test for Varicella to determine if you are immune. The blood test for Varicella can be ordered by your primary care doctor OR if you do not have insurance EOHD can order the test and you will be billed \$25. If the blood test shows you are not immune you will need to be vaccinated.

Volunteers in most service areas will also need to purchase a volunteer uniform. We require a minimum commitment of 100 hours of service, and most volunteers work at least two 4-hour shifts per month. Volunteers are eligible for a wide range of benefits, including a free meal while on duty and the opportunity to participate in some of the same programs and discounts offered to hospital staff.

We offer a variety of volunteer opportunities and make every effort to match your particular skills and interests with the hospital's needs. If you are interested in learning more about the volunteer program at Sharp Grossmont Hospital, please complete the attached application and return it to us in the envelope provided.

If you have any questions regarding this process, please call the Volunteer Office at (619) 740-4059, or email [sgh.volunteers@sharp.com](mailto:sgh.volunteers@sharp.com). Again, thank you for your interest in Sharp Grossmont's Volunteer Program.

Sincerely,

Linda Van Fulpen  
Manager of Volunteer Services

Katrina Villard  
Supervisor of Volunteer Services
