SHARP HEALTHCARE SYSTEM ● PGY1 PHARMACY RESIDENCY PROGRAM

July 2\textsuperscript{nd} 2018 - June 28\textsuperscript{th} 2019

PROGRAM GOALS

Sharp HealthCare is a not-for-profit integrated regional health care delivery system based in San Diego, California. The Sharp Health System is comprised of four acute-care hospitals, three specialty hospitals and two medical groups, in addition to hosting a full spectrum of inpatient and outpatient facilities and services. Residents are hired and the program is accredited and conducted through Sharp Chula Vista Medical Center.

This ASHP-accredited pharmacy practice (PGY1) residency provides opportunity for residents to enhance their ability to provide effective pharmaceutical care in a wide variety of settings. Sharp Chula Vista Medical Center serves as the home base of the residency program but residents also complete their learning experiences at Sharp Memorial Hospital, Sharp Grossmont Hospital, and other Sharp HealthCare hospitals. Through this health care system residency approach, the resident obtains pharmacy experience in multiple diverse patient care settings. Unique and distinctive training may include: Emergency Medicine, Transitions of Care, Critical Care, NICU, Infectious Disease, Oncology, Trauma, Nutritional and Metabolic Support, Safe Medication Practice, Solid Organ Transplant, Psychiatry, and Specialty Pharmacy.

Residents work under the mentorship of pharmacy resident advisors and preceptors. This program enables the resident to improve communication and leadership skills with health care professionals, pharmacy students, and patients. Residents participate in the development of their own residency plan, which reflects their interests and builds upon their previous experiences. Upon successful completion of our program, the resident will be equipped with the knowledge to become an asset to the pharmacy community.
